**IT MANAGER  
OF TOMORROW**

June 8–10, 2022

# Track the conference value

## Selected attendees

Leaders, thinkers, practitioners. Top IT Managers from all over Poland, working in major international organizations.

## Engaging networking

Connecting and building long-lasting relations with the best in IT business.

## New ideas

Sharing thoughts, passions and experiences with interesting people from IT community.

## Focus on content

Practical knowledge, case studies, success and failure stories. All the information desired by IT Managers of Tomorrow.

## Brand awareness

Perfectly organized and comfortable space that gives inspiration and brings out creativity.

## Knowledge sharing

Educate IT industry, sharing knowledge and unique experience. Thanks to our case study session, discussion panel and networking meeting, problems became just a simple challenge.

**IT MANAGER  
OF TOMORROW**

June 8–10, 2022

# Program tracks & structure

In order to create a valuable and inspiring experience for all our attendees, partners and speakers we build our program with following principles:

## Keep It dynamic and interesting

Why we create our program in a way to keep you engaged.

**IT MANAGER  
OF TOMORROW**

June 8-10, 2022

## Focus on practical experience

That's why we put emphasis on sharing case studies, inviting practitioners (seasoned IT Managers, Experts) and discussing real-life challenges.

## Think holistically

In order to succeed as a IT Manager we need to think holistically, develop our skill and knowledge in many dimensions. We need to be a great PeopleLeader, understand Technology and be able to have a business perspective. And so our program needs to be holistic as well.

## Learn from the best in class

That's why we invite and gather representatives from trendsetting companies (from various industries) including Spotify, Revolut, Netflix, Formula1, Volvo, Amazon, Google, ABB, BNP, Allegro, mBank, Amazon, Facebook, Google and many, many more.

## The more interactive the better

That's why we will have a lot of interactive formats like panel and roundtable discussions, interviews, workshops. We are going to create a space that encourage and inspire to ask questions, discuss and network.

## Make it relevant

For last few years we have been continuously gathering your interests, challenges, questions, plans. That's why we know what the relevant program should include.

## No FOMO effect

While attending multitrack event you may have a FOMO (fear of missing out) feeling. In order to avoid that inconvenience we will record and give you access to all sessions.

We will cover  
the most relevant  
topics in the  
times of  
accelerated  
digital  
transformation

1. Digital Transformation Journey
2. Unleashing Innovations
3. Agility at Scale
4. Leading & Building High-Performing IT Teams
5. DevOps and Modern Service Management
6. Global IT in Poland
7. Digital Sustainability
8. Cybersecurity Privacy & Risk
9. Cloud Journey
10. Career and Professional Growth

IT MANAGER  
OF TOMORROW

June 8–10, 2022

# Networking Events

Connecting and building long-lasting relations with the best in IT business during our Networking Parties.

# The Cruise powered by Invest in Pomerania

Don't miss that cruise! For 3 hours  
we will be traveling on the Bay of  
Gdynia. We will eat, drink and...  
yes. We will network!

# ITMT Awards Gala Big Networking Party

IT Manager of Tomorrow is all about meaningful connections. During the whole conference will be a lot of occasions to network and meet new people, but this event will be special. One of the points will be the IT Manager of Tomorrow Awards Gala, where we will know the winners of the contest! This huge happening is a celebration of the IT Managers community in Poland.

# Off-agenda Discover Gdynia

IT Manager of Tomorrow doesn't stop when the talks end. After hours, "Discover Gdynia" is your opportunity to unwind and explore Gdynia. Experience the city's many amazing neighbourhoods and hotspots. Make incredible memories and unlock the other side of IT Manager of Tomorrow.

# IT Manager of Tomorrow Awards

**IT Manager of Tomorrow Awards** is an initiative promoting the best IT managers in Poland responsible for transformations in their companies.

From 2018, an independent jury selects the best IT leader. The contest is an opportunity to share IT Manager's story and inspire others.

**IT MANAGER  
OF TOMORROW**

June 8–10, 2022

# Testimonials

"The value of **IT Manager of Tomorrow** products is community – big, active and involved. Thanks to the business partners met on conference and contest, service providers can be inspired to solve the challenges posed by our clients. Relationships started during LMIT's events are great value for companies, partners and participant."

**Marcin Morawski**  
DELL TECHNOLOGIES POLAND

"In the IT department we always have the same problem – in different dimensions, on different scale, but it's always good to learn from others and listen to others. What I like about this event is the atmosphere, professionalism and the way you select topics. It's a very good event."

**Benno Zoler**  
FUJITSU MUNICH
